

## Suction Release – Pressure Sealed

### Three (3) versions to choose from

(Block-out White PP, Frosted White PET, & Optical Clear PET)

- Peel & Place with permeate micro-suction formula
- Adheres to Glass, Plexiglass, Formica, Coroplast & Metals (depending on which version)
- Removable & Reusable (many times)
- Water resistant - cleanable (glass cleaners, 409)
- Fade resistant (up to 1-year) extreme sun may vary results
- Bubble Free when applied correctly (best to wet apply the PET clear versions and large white PP installs)
- Full bleed printing (no need to leave white boarder)
- Conforms to temperature change (does not shrink) - ok to butt or overlap panels
- Kiss-Cut/Contour cut capable
- No Residue, No Static, No Cling (a non-adhesive innovated formula)
- Phthalates, Glyco-ether and Formaldehyde Free

Outdoor windows, 2<sup>nd</sup> surface (PET), plastics, in-store cooler doors, metal surfaces, automotive dealership & yard signs .....

- ❖ Block-Out White & Optical Clear uses: **All solvent, UV and Latex inks only**
- ❖ Frost uses: **Latex & UV inks only**
